

Sightseeing tours

Our sightseeing tours will give you the chance to explore the nature as well as the special way of life here in the North. We offer, for instance, sightseeing tours to some spectacular places, Icelandic farms, power station and museum. The aim is to get you close to the nature and the local people. These tours are recommended for all nature lovers.

Dettifoss Sightseeing-6

Dettifoss is the most powerful waterfall in Europe and is unforgettable at winter time. This is an outstanding tour, where you get the opportunity to see the nature at its best. We do also see the waterfall Selfoss and the basalt canyon of the river Jökulsá. The drive to Dettifoss takes about 1 hour and then we walk down to the waterfalls in some snow conditions. It is a great fun but can sometimes be a little difficult to walk in the snow. So dress well and be prepared for everything.

Myvatn Sightseeing-1

Lake Mývatn is a wonderful place in both winter and summer. On this tour we will explore its surroundings. Volcanic and geothermal activity near the lake have created spectacular landscape and scenery. We will make many stops by the lake; such as at the thermal area of Námafjall, where you will see boiling mud pools and bubbling sulphur pits, an underground cave with hot spring, the dark city of Dimmuborgir, the lava sculptures and the beautiful woodland in the nature park Höfði. All this and many other spectacular areas awaits you on the Lake Mývatn wonders tour.

Evening Northern lights hunt – Sightseeing 3

Lake Mývatn belongs to the highland of Iceland and is around 300 m above sea-level. This is why Lake Mývatn is a remarkable place to discover the Northern Lights. It is unforgettable to stop in the middle of nowhere, stepp out of the car, “the tranquility” and search for the Northern Lights. The Northern Lights are unrealable and not always to be seen, however, it can still be a great adventure. To warm you up we serve home made bread, cakes and hot chocolate.

The Northern Lights tour is an experience you should not miss!

Myvatn Nature baths – Sightseeing 4

Myvatn nature bath opened summer 2004 a great nature bath. The lagoon is rich in unique combination of natural minerals and will get blue green algae and white silica mud in the future, which give the lagoon its soft, milky, aquamarine color. The natural geothermal is also very healthy for patients with psoriasis and other skin ailments. A good dressingroom, three different kind of steambath and a hot tub as well can also be found at the nature bath.

An unique experience!

Bird museum – Sightseeing 5

The bird museum is considered the largest private bird collection that is known in Iceland. It need only 1 bird to have all Icelandic breeding birds. There are information and education about birds, bird books to review, logbook for bird watching, telecope to watch a bird on the water and the camera that shows direct on display in the museum. Nowhere in the world are so many species of duck to be found in the one and same place. The barrow's goldeneye duck (*Bucephala islandica*) has it's only breeding habitat in Europe in Northeast Iceland, mostly by Lake Myvatn.
