

Super-Jeep

It can be said that super-jeep is becoming as common in Iceland as the yellow cab is in New York. These modified vehicles are used to get you closer to the nature in comfort. Driving on mountain tracks or just cruising on top of winter snow. Experienced drivers, radio equipment and satellite navigation make these trips safe regardless of the weather conditions.

Myvatn JEEP-1

Two in one! Sightseeing at Mývatn and a super jeep adventure. This is a great and exciting way to travel around the lake. This tour will take you to the same areas as the Mývatn SIGHTSEEING-1. In high winter when the roads are covered with snow, it might be the only way to get really close to the lakeside.

Tour available: Sep-May
Duration: 3 hours
Departure 10:00 am
Min. 3 pers.

Price: 15.900 pr. person
Included: -super-jeep and english speaking driver.
Not included: -personal insurance.

Jeep Safari – Hverfjall –Lúdent – Krafla JEEP-2

After a nice breakfast at the hotel you meet the staff and the jeep that takes you on an unforgettable tour further into the Mývatn area. You cross Dimmuborgir “the Dark lava” and Hverfjall or Hverfell (the name depends on whom you may ask) a big explosion crater nearby Dimmuborgir. The tour heads to the craters of Lúdent.

Lúdent's were formed some thousand years ago, a great row of craters some kilometre long. This special OFFROAD tour takes you to some of the most beautiful “hidden” places of Lake Mývatn.

After a good rest at Lúdent we drive on the backside of Hverfjall down to Hveraönd where you can find the smell of the magnificent boiling sulphur pots.

We will end the tour by driving to Krafla and visit the area that last erupted in 1985, there you will be standing in the middle of a crater sensing the power of the earth.

Tour available: Sep-May
Duration: 3-4 hours
Departure 10:00 am
Min. 3 pers.

Price: 22.500 pr. person
Included: -super-jeep and english speaking driver.
